

GS516PP and GS524PP Unmanaged Gigabit Ethernet PoE+ Switches

The GS516PP 16-port High-power PoE+ Gigabit Ethernet Unmanaged Switch and the GS524PP 24-port High-power PoE+ Gigabit Ethernet Unmanaged Switch join the NETGEAR Unmanaged switch family, adding full 16 and 24 port PoE+ support for flexible deployment of modern high-power PoE devices. Companies can now deploy denser PoE+ devices connected to a single switch instead of multiples with a total PoE power budget of 260W (GS516PP) and 300W (GS524PP). The quiet design makes the GS516PP and GS524PP ideal for any home or business environment.

GS516UP and GS524UP Unmanaged Gigabit Ethernet Ultra60 PoE++ Switches

NETGEAR brings the first Unmanaged PoE++ switch with Ultra60 PoE++ technology with two new 16-Port (GS516UP) and 24-port (GS524UP) Unmanaged Switches, ideal for powerful PoE++ installations with PoE budgets up to 380W and 480W, a compact size, plug-and-play installation, and reliable performance at affordable prices.

With IoT (Internet of Things) continuously
