

Orbi Pro Router SRR60

Orbi Pro Desktop
Satellite SRS60

Orbi Outdoor
Satellite RBS50Y

Orbi Pro Ceiling
Satellite SRC60

Features

Orbi Pro mesh WiFi systems comprise of a router and several satellites that work together to cover a potentially large area with great high performance WiFi. This router already has a WiFi access point but can easily be matched with desktop, outdoor and ceiling mounted satellites to expand its coverage area.

Better WiFi for Business. Everywhere.

Wire-free Installation

No need to run cables. When adding a Satellite to the Orbi Pro Router, it automatically connects through the powerful wireless backhaul.

Location Flexibility

New industrial design for desktop, wall or ceiling placement.

Orbi Pro Deployment

Orbi Pro – AC3000 Tri-band WiFi Router

Technical Specifications

What's in the box?

- One (1) Orbi Pro AC3000 Router (SRR60)
- One (1) wall mount with screws
- One (1) ceiling mount with screws
- One (1) 2m Ethernet cable
- One (1) 12V/2.5A power adapter
- Quick start guide

What do I need for Orbi to work?

- Connect to existing modem or gateway with high speed Internet

Physical Specifications

- Dimensions: 6.8 x 3.3 x 9.7in each
- Weight: 2.06lb each

Orbi Pro Router does not support and will not pair with Orbi Home WiFi System Satellites, except for the Outdoor Orbi. Orbi Pro Router supports up to 6 satellites for deployment in large areas such as warehouses, car dealerships, golf courses, campgrounds.

Technical Specifications

- Orbi Pro AC3000 Router (1,733 + 866 + 400Mbps)[†]
- Simultaneous Tri-band WiFi
 - Radio 1: 4x4 (transmit x receive) with 4 streams of data on 5GHz (1733Mbps)
 - Radio 2: 2x2 (transmit x receive) with 2 streams of data on 5GHz (866Mbps)
 - Radio 3: 2x2 (transmit x receive) with 2 streams of data on 2.4GHz (400Mbps)
- Six (6) high-performance antennas with high-power amplifiers
- Implicit/Explicit Beamforming for 2.4 & 5GHz bands (1,733 + 866 + 400Mbps)[†]
- MU-MIMO capable for simultaneous data streaming on multiple devices
- Four (4) 10/100/1000Mbps Gigabit Ethernet ports
 - 1 WAN & 3 LAN for Router

• Security

- WPA/WPA2-PSK support
- Three (3) wireless network modes
 - Administrative device
 - Employee devices
 - Guest devices with Administrative Portal Challenge
- Guest WiFi Network is easy to setup for secure Internet access
- Guest network devices are denied access to Administrative and Employee networks and any device connected to those networks

TECHNICAL

[†] These specifications are with a limited warranty that is valid only if purchased from a NETGEAR authorized reseller.

¹900MHz may require a premium service subscription.

² Signal strength may decrease actual data throughput rate and WiFi coverage.

[†] Maximum signal rate derived from IEEE standard 802.11 specifications. Network conditions and environmental factors, including volume of network traffic, building construction, and other factors, may decrease actual data throughput rate and WiFi coverage.
