Introducing one-touch wireless visibility & management

Wireless network discovery, setup, monitoring and management can now be done from anywhere and any screen with NETGEAR Insight app or Cloud Portal.

Reliable wireless connectivity for employees and customers is a requirement for any business today. All devices are now connected, all users are mobile and "WiFi everywhere" is commonplace. Business owners are often too busy to handle this and need WiFi that just works!

NETGEAR introduces the new IT revolution for small businesses with remote visibility and control with NETGEAR Insight management solution. Experience easy set-up, remote management and full control of your wireless network. With 20 years of experience in small & medium business networking, NETGEAR is now delivering wireless connectivity that "just works" at your fingertips.

NETGEAR Insight also enables multidevice configuration of your NETGEAR Insight Managed wireless access points, either locally or remotely. It provides network management, monitoring and service deployment across multiple remote and local sites for the easiest and most user-friendly wireless networking experience. Anywhere management also includes Insight Managed switches and Business-Class ReadyNAS on top of Insight Managed Wireless Access points, enabling whole network visibility and management.

Insight app also allows you discover select wired and wireless devices from your local or remote network.

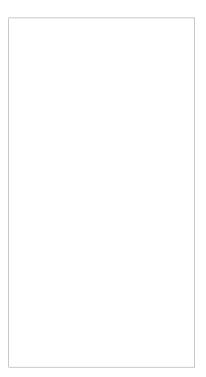

Business Features for higher speed, greater coverage and higher density WiFi

- Business class WiFi with superior Wave 2 802.11ac performance and range
- 2x2 with 2 streams of data (2.4Ghz and 5Ghz) for an aggregate throughput of up to 1.3Gbps
- Multi-User Multiple In Multiple Out (MU-MIMO) avoids congestion and ensures performance in high client density deployments like public WiFi hotspots
- One PoE port (WAN port) on both models for ease of deployment.
- One-touch network visibility. Anywhere. Remote management and monitoring from NETGEAR Insight app or Cloud Portal for unrivaled management experience of your wireless network.
- App managed. Faster installation through NETGEAR Insight app or Cloud Portal. No additional hardware needed.
- Market leading 5-year warranty with 24x7 chat support for peace of mind
