

Connect any device with a network port to your existing home wireless network

- Wirelessly connects networked home theater devices such as Xbox 360[®], PS3[™], TiVo[®], VUDU, Blu-ray player, and Internet TVs to your home network.
- Universal—works with any network enabled device. No need to buy a Wi-Fi adapter that only works with one type of device
- Powered by any USB port, avoids an additional power outlet
- Avoid long stringing cables. Freedom to place your home entertainment center anywhere and still connect to the Internet
- Compact design provides space-saving placement on your HDTV¹
- Push 'N' Connect secures connection to the existing network at a push of a button, true plug-and-play

STEP 1
Push the Push 'N' Connect button on the adapter

STEP 2
Push the Push 'N' Connect button on your router

STEP 3
Connect securely

¹For best performance place adapter in front or to side of television.

The NETGEAR Difference

WNCE2001

- ✓ Universal compatibility
- ✓ CD-less, wireless installation
- ✓ Push 'N' Connect
- ✓ Powered by USB port

System Requirements

- Existing wireless home network with Internet connection

*Basic technical support provided for 90 days from date of purchase.

[†]Maximum wireless signal rate derived from IEEE standard 802.11 specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. NETGEAR makes no express or implied representations or warranties about this product's compatibility with any future standards.

[‡]"N", "Wireless-N" and "802.11n" refer to compliance with IEEE 802.11n specification version 2.0 only.
